

## Trademarks, Patents & Citations

*For information about patents and licenses held by PerkinElmer, Inc., please contact the Chief Intellectual Property Counsel.*

*The PerkinElmer® logo and design are registered trademarks of PerkinElmer, Inc. The other marks referenced herein are either trademarks or registered trademarks of PerkinElmer, Inc. or its subsidiaries, in the United States and other countries, unless otherwise noted below.*

Trademarks not owned by PerkinElmer, Inc. or its subsidiaries mentioned herein may be the property of their respective owners, including but not limited to:

AcroWell is a trademark of Pall Corporation.  
Alexa Fluor is a registered trademark of Molecular Probes, Inc.  
AttoPhos is a registered trademark of JBL Scientific Inc.  
Barex is a registered trademark of BP Chemicals, Inc.  
BigDye is a registered trademark of PE Corporation.  
BioMax is a registered trademark of Eastman Kodak Company.  
BODIPY is a registered trademarks of Molecular Probes, Inc.  
CDP-*Star* is a registered trademark of Applied Biosystems, Inc.  
Coomassie is a trademark of Imperial Chemical Industries, Inc.  
Corning is a registered trademark of Corning, Inc.  
Costar is a registered trademark of Corning, Inc.  
Dispensette is a registered trademark of Brand GmbH & Company.  
Duracryl is a registered trademark of ESA, Inc.  
FLAG is a registered trademark of Sigma-Aldrich Co.  
GERMALL is a registered trademark of International Specialty Products.  
Hyamine is a registered trademark of Lonza, Inc.  
Hydra is a trademark of Beckman Coulter, Inc.  
IODO-GEN is a registered trademark of Pierce Chemical Company Corporation.  
KODAK is a trademark of Eastman Kodak Company.  
Lissamine is a trademark of Imperial Chemical Industries, Inc.  
Millipore is a registered trademark of Millipore Corporation.  
Multiphor is a registered trademark of LKB-Produkter AB Corporation.  
MultiScreen is a registered trademark of Millipore Corporation.  
Nitro-Block II is a trademark of Applied BioSystems, Inc.  
Nonlinear Dynamics is a registered trademark of Nonlinear Dynamics Ltd.  
Oregon Green is a registered trademark of Molecular Probes, Inc.  
Pall is a registered trademark of Pall Corporation.  
pGEM is a registered trademark of Promega Corporation.  
Protran is a registered trademark of Schleicher & Schuell, Inc.  
SafetyPrime is a registered trademark of Brand GmbH & Company.  
Sephadex is a registered trademark of GE Healthcare.  
Sepharose is a registered trademark of GE Healthcare.  
SuperChip and UltraClean are trademarks of Erie Scientific.  
*SureFire* is a trademark of TGR Biosciences.  
*SureLight* is a registered trademark of Martek Biosciences Corporation.  
SYPRO is a registered trademarks of Molecular Probes, Inc.  
Teflon is a registered trademark of E.I. du Pont de Nemours and Company.  
Texas Red is a registered trademark of Molecular Probes, Inc.  
Triton is a trademark of Union Carbide Chemicals and Plastics Company.  
TranScreen is a trademark of Eastman Kodak Company.  
Tween is a trademark of ICI Americas, Inc.  
VALIUM is a registered trademark of Hoffman-LaRoche.  
X-OMAT is a registered trademark of Eastman Kodak Company.

## Patents, Citations & Disclaimers

Use of nucleotide analogs for primer extension may be within the scope of patents held by Orchid BioSciences, Inc. To the extent that Orchid Biosciences patent rights encompass ACYCLOPRIME products and uses thereof, Orchid BioSciences has granted a limited license to U.S. patent nos. 5,888,819, 5,952,174, 6,004,744, and 6,013,431, and foreign counterparts for detection and quantification of SNPs using fluorescence polarization or fluorescence energy transfer detection platforms. Information about purchasing licenses to practice primer extension technology covered by Orchid BioSciences, Inc. patents for any other use may be obtained by contacting Orchid Cellmark, Princeton, New Jersey.

MICROMAX product systems were jointly developed with Alphagene, Inc. and PerkinElmer LAS, Inc. and are manufactured and distributed exclusively by PerkinElmer LAS, Inc.

MICROMAX products are made using the Polymerase Chain Reaction ("PCR") Process which is covered by patents owned by Roche Molecular Systems, Inc. and R. Hoffman-La Roche Ltd ("Roche"). No license to use the PCR Process is conveyed expressly or by implication to the purchaser by the purchase of this product. Information on purchasing licenses to practice the PCR Process may be obtained by contacting the Director of Licensing at Roche Molecular Systems, Inc., 1145 Atlantic Avenue, Alameda, California 94501.

Nucleotide analogs products and use thereof may be covered by one or more patents owned by PerkinElmer Life and Analytical Sciences, Inc., including U.S. patent nos. 5,047,519; 5,151,507; 5,558,991, 5,608,063. Products incorporating a cyanine dye may be covered by one or more patents owned by PerkinElmer LAS, Inc., including U.S. patent nos. 6,114,350; 6,197, 956; 6,204,389; and 6,224,644 relating to cyanine dye precursors, uses, and labeled moieties.

Tyramide Signal Amplification (TSA) and its uses are protected by one or more patents owned by PerkinElmer Life and Analytical Sciences, Inc., including U.S. patents 5,196,306, 5,583,001, 5,731,158 and 5,863,748 and patents pending and foreign equivalents thereof.

FlashPlate is protected under U.S. patent 5,496,502 and foreign equivalents.

Adenylyl Cyclase Activation assay is protected under U.S. patent 5,739,001 and foreign equivalents.

ATPlite is protected under U.S. patent 6,503,723 and foreign equivalents.
